Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 22 January 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-14 are rejected under 35 U.S.C. 102(e) as being anticipated by Chang et al. (US 2003/0016698).

Regarding claims 1, 2, 7, Chang discloses a method for resetting MAC layer entity in a W-CDMA communication system using HSDPA (title). Chang discloses that the W-CDMA communication system comprises a RNC, a Node B (base station), and a UE (mobile terminal) (page 2, paragraph 24). In the scope of the invention, When a RLC (Radio Link Control) layer entity is reset due to occurrence of a protocol error, the systems resets both a MAC-hs (Medium Access Control-high speed) layer entity of the RLC layer entity and its counterpart RLC (abstract).

Regarding claim 3, Chang teaches that the Node B has the MAC-hs layer and this layer is reset which therefore resets the MAC layer at the UE (page 2, paragraph 24).

Regarding claims 4 and 6, Chang teaches that the RNC sends RLC reset information to the base station, which causes a MAC-hs reset (page 5, paragraph 71).

Regarding claim 5, Chang teaches that the RLC reset information includes a control frame type that causes uplink and downlink synchronization of the Node B and therefore reconfigures channels of the UE (page 5, paragraph 71).

Regarding claims 8 and 14, Chang discloses HARQ protocol and storing PDUs for retransmission (page 8, paragraphs 89 and 90).

Regarding claims 9 and 10, Chang teaches that the sender MAC-hs discards transmission data temporarily stored in its internal buffer memory and suspends HARQ operation in response to a RLC reset (page 6 paragraph 76).

Regarding claims 11-13, Chang teaches that the MAC segments and inserts MAC headers to the received RLC PDUs which is comprised of C/T which is an indicator for distinguishing logical channels in the same transport channel (RID field) (page 7, paragraph 81).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nam Huynh whose telephone number is 571-272-5970. The examiner can normally be reached on 8 a.m.-5 p.m..
